Dear VEERABABU JAKKULA,

Congratulations! You have been shortlisted for the Samsung Fellowship as part of Cohort 8 of the India Semiconductor Workforce Development Program (ISWDP). Cohort 8 will commence on June 7, 2026. More details and schedule will be shared later with registered students. Please note that completing the ISWDP course is a mandatory requirement to get the Samsung Fellowship Certificate.

Out of over 4,000 applications, your academic performance, skills, and institutional ranking have earned you a place among the top candidates, achieving fellowship in the Grade III category.

As announced earlier, the fellowship was divided into four grades.

Grade I: 100% Fee waiver on "Level 1, Level 2, and Advance" together & 75% Fee waiver on "Level 2 Hands-on and Advance Hands-on" together. This comes as a bundle package. A unique discount code is provided to avail the Fee Waiver as part of this Fellowship.

Grade II: 75% Fee waiver on "Level 1, Level 2, and Advance" together & 75% Fee waiver on "Level 2 Hands-on and Advance Hands-on" together. This comes as a bundle package. A unique discount code is provided to avail the Fee Waiver as part of this Fellowship.

Grade III: 65% Fee waiver on "Level 1, Level 2, and Advance" together & 50% Fee waiver on "Level 2 Hands-on and Advance Hands-on" together. Here, the "Level 1, Level 2, and Advance" training comes as a bundle package and is mandatory, whereas the "Level 2 Hands-on and Advance Hands-on" training is optional and comes as a separate bundle package. Two unique discount codes are provided to avail the Fee Waiver as part of this Fellowship, one for "Level 1, Level 2, and Advance" bundle package and another for "Level 2 Hands-on and Advance Hands-on".

Note: "Hands-on" refers to gaining access to the tool license, allowing you to practice after classes. Even if you do not select the hands-on option, you will still have the benefit of viewing the simulation demos during the classes. However, opting for hands-on enables you to practice on your own after classes.

To avail the fellowship, you must register at the portal by or before May 26, 2026, 11:59 PM. After this deadline, the registrations will not be accepted for logistic reasons.

To register click on <https://iswdp.registeryourseat.in/index.php> and sign-up. You must use the same email ID that you used to apply for the fellowship (i.e. the email ID on which you receive this email). The discount codes will not work if you are using a different email ID. **If the registration link is not working due to high traffic, please wait a few hours and try refreshing the page again.**

Since you have earned the Fellowship in the Grade III category, to register you have to select the "Bundle Registration Category – II" option on the portal under Self-Registration, under which you first select YES under "Register for Level 1, Level 2, and Advanced Levels" and apply this unique discount code: **HEWGQKC4**

If you are interested in the Hands-on training components too, before you proceed for the payment, select YES under "Register for Level 2 Hands-on, Advanced Hands-on" and apply this second unique discount code: **V1BV7UHF**

We would strongly recommend you to also opt for the hands-on training components for a complete learning experience.

Please note that this Fellowship registration is specific to Cohort 8 and cannot be carried on to future cohorts. If you do not complete your registration for this cohort, you may not be eligible to register for subsequent cohorts, except in exceptional and meritorious cases.

Please write to us if you face any issues during the registration process (email us the screenshot of the error or video of the steps followed). See FAQs for more information <https://iisc-iswdp.org/faqs.php>

Best regards,

India Semiconductor Workforce Development Program (ISWDP)
