SUMMARY

Final-Year B.Tech ECE Student and Full Stack Developer skilled in FastAPI, React.js, Next.js, PostgreSQL, RabbitMQ, AWS, System Design, and cloud technologies.

EDUCATION

Narasaraopeta Engineering College

2023–2027

B.Tech in Electronics and Communication Engineering

CGPA: 8.71/10

TECHNICAL SKILLS

Java, Python, SQL, C, JavaScript, React.js, Next.js, HTML5, CSS3, FastAPI, Node.js, REST APIs, PostgreSQL, MySQL, SQLite, RabbitMQ, AWS SES, AWS SNS, SMTP, AWS, Docker, Git, GitHub, System Design, Monitoring, Technical Documentation.

PROJECTS

SHR Flow – Enterprise Email Delivery Platform

2026–Present

System Architecture, Full Stack Development & Technical Documentation. Designed scalable email delivery architecture using AWS SES/SNS, SMTP, RabbitMQ, monitoring, audit logging, security hardening, testing, debugging, and documentation.

Maritime Vessel Tracking & Port Analytics Platform

2026

[GitHub](#) | [Live](#)

Built a maritime analytics platform using React, FastAPI, PostgreSQL, dashboards, and cloud deployment.

Skill Bridge AI Platform

2025

[Live](#)

Created an AI-powered recommendation platform with scalable backend workflows.

Tech Learning Hub

2025

[Live](#)

Developed a learning platform providing structured roadmaps, notes, and resources.

EXPERIENCE

Runway Digital – Full Stack Developer Intern

2026–Present

Contributing to SHR Flow through backend development, email delivery workflows, architecture documentation, monitoring, testing, debugging, and cloud integrations.

Infosys Springboard – Full Stack Development Internship

2026

Built scalable web applications with REST APIs and cloud deployment workflows.

Google & APSCHE – AI/ML Virtual Internship

2025

Worked on ML workflows and cloud-based AI tools.

Microchip Technology Inc & APSCHE – Embedded Systems Internship

2025

Developed microcontroller-based embedded system prototypes.

Emertxe – IoT Virtual Internship

2025

Worked on IoT concepts, sensors, and device communication.

Data Valley – AI & IoT Virtual Internship

2026–Present

Building AI-driven automation and smart IoT solutions.

ACHIEVEMENTS

Google Big Code Challenge 2026 – Cleared Qualifier and Round 1

Participated in AWS AI for Bharat, GitLab AI, Gemini 3, AMD AI, and national-level hackathons.

CERTIFICATIONS

Google Data Analytics, IBM AI Chatbots, Prompt Engineering, Machine Learning on AWS, Google AI for Anyone, Stanford CS101, AWS Cloud Technical Essentials, DevOps on AWS, Cloud Computing (IBM).
